Full back office web platform for operat: Full back office web platform for operations, HR and finance

Mobile guard app for attendance, salary : Mobile guard app for attendance, salary and self-service

CORE MODULES

Comprehensive Solution Capabilities

Built to support real operating teams with clear modules, practical workflows, and presentable product depth.

Deployment Command Manage monthly rosters, shift codes, relief officers, duplicate checks, vouchers and exception handling through a 31-day matrix built for real operations work.	Shortfall Intelligence See requirement gaps by client, day and shift. Move from coverage risk to actionable suggestion flows with officer recommendations and drill-down analysis.	People & Payroll Employee records, leave, allowances, deductions, salary generation, CPF, IRAS and vouchers linked in one end-to-end back office workflow.
Field Mobility + AI Officers stay connected via a dedicated mobile app while management gets an AI workspace for summaries, incident analysis and attendance insights.	Dashboard Visibility Deployed days, leave balance, off days and shift reminders at a glance on every login.	Check In & Check Out One-tap attendance logging with date confirmation and departure recording built for field conditions.

WHY CHOOSE

Why Choose Straits Tribe?

Plan	Deploy
Operate	Close

BUSINESS FIT

Built For Practical Decision-Makers

Decision-makers, operators, and delivery teams evaluating SBMS as a commercially presentable Straits Tribe solution.

OUTCOMES

What This Solution Helps Teams Achieve

- Each module feeds the next. Operations plan coverage, supervisors execute duty, officers log attendance, payroll teams close salary cycles and management receives reports — no duplicate entry.

Ready to position SBMS with confidence?

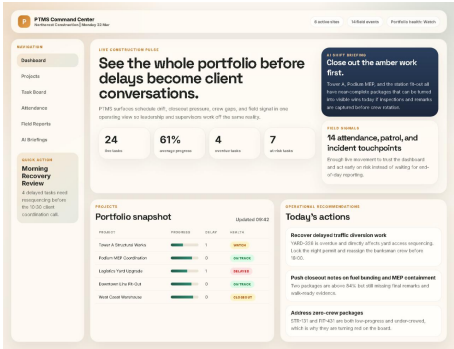

Use this Straits Tribe brief as a polished partner-facing leave-behind for walkthroughs, presentations, and solution discussions.

CONSTRUCTION • TASKS • FIELD INTELLIGENCE

PTMS

PTMS is a construction operations command platform enabling project task recovery, field intelligence, and seamless site coordination.

Request Solution Walkthrough

ABOUT PTMS

PTMS

Projects · Tasks · Field Intelligence · AI

CORE MODULES

Comprehensive Solution Capabilities

Built to support real operating teams with clear modules, practical workflows, and presentable product depth.

Portfolio Control See which sites are stable, which ones are slipping, and where management intervention will create the fastest operational impact.	Task Recovery Keep work packages visible from planning through execution and closeout, with sequencing pressure and blockers surfaced clearly.	Field Intelligence Attendance, incidents, requests and movement in the field become live signal instead of fragmented side-channel reporting.
AI Briefings Daily summaries and guided action cues help supervisors and managers focus on the packages most likely to affect delivery.	A more credible platform story for construction decision-makers. PTMS demonstrates three things immediately: there is a leadership surface, there is a project execution surface, and there is field continuity. That combination makes the product easier to position in enterprise conversations than a generic task system or a static reporting portal.	Daily Control Surface Start the round with project load, overdue work and field signal already summarised.

WHY CHOOSE

Why Choose Straits Tribe?

Commercially credible solution story	Operator-focused workflows
Modern presentation surface	Partner-ready positioning

BUSINESS FIT

Built For Practical Decision-Makers

It is a stronger product story for enterprise construction buyers, a cleaner operating layer for delivery teams, and a more credible way to present modern project control across web and mobile.

Ready to position PTMS with confidence?

Use this Straits Tribe brief as a polished partner-facing leave-behind for walkthroughs, presentations, and solution discussions.

Platform Preview

ABOUT MSC AI

MSC AI

A centralized platform for vessel inspections certification workflows & audit-ready IMO and EHS compliance.

CORE MODULES

Comprehensive Solution Capabilities

Built to support real operating teams with clear modules, practical workflows, and presentable product depth.

Manual & Fragmented Paper forms and disconnected records delay inspections, weaken accountability, and slow field response.	SOLAS Audits Fail Untracked deficiencies in CO2, fire safety, or breathing apparatus quickly become detention and delay events.	Zero Fleet Visibility Without one shared operating view, teams struggle to track readiness, overdue actions, and fleet-wide status.
Vessel Inspection Management Run structured inspection checklists and capture findings consistently across vessels, systems, and crews.	Safety Equipment Tracking Track life-saving appliances, expiries, and maintenance schedules before gaps become operational risks.	Certification & AI Compliance Issue traceable digital certificates and reports with AI summaries that flag overdue actions, highlight repeat deficiencies, and speed up review.

WHY CHOOSE

Why Choose Straits Tribe?

Purpose-Built Natively	Absolute Offline Reliability
AI-Assisted Decision Support	Classification Ready

BUSINESS FIT

VENUES • MEMBERSHIP • BOOKINGS

Facility Booking & Operations Platform

Straits Tribe presents a high-performance sports facility booking and operations platform. Resource management, scheduling, and administrative control in one seamless ecosystem.

Request Solution Walkthrough

ABOUT FACILITY BOOKING & OPERATIONS PLATFORM

Facility Booking & Operations Platform

Straits Tribe brings member self-service and administrator control into a single easy-to-use platform: find facilities, check calendars, approve group requests, manage memberships, sell tickets, track payments, stay busy, and keep everything running smoothly with professional staff tools.

Members can quickly buy tickets, members: Members can quickly buy tickets, memberships, and book their time.

Team leaders can make group bookings and: Team leaders can make group bookings and track their requests.

CORE MODULES

Comprehensive Solution Capabilities

Built to support real operating teams with clear modules, practical workflows, and presentable product depth.

Bookings with policy-aware scheduling Users can search facilities, inspect availability, pick time slots, reuse favorites, pay for reservations and review their own booking history. The booking layer also includes blocked-slot control, quotas, schedule views and privileged edit paths for staff or managers.	Group requests, approvals and status tracking Group representatives can submit block booking requests while staff advisors and administrators review, approve or reject them. The implemented flow supports lifecycle states, payment preference capture and visibility into all bulk bookings.	Memberships, tickets and guest access The system includes membership plans, membership validity windows, ticket sales, QR code generation, guest request workflows, digital guest passes and user profile visibility for access-related entitlements.
Administration, reporting and auditability Facility types, resource amenities, permissions, finance dashboards, notification management, report configuration and audit logging sit in the same platform, reducing the need for parallel spreadsheets and disconnected tools.	Tools for Everyone Designed to work for your members, your teams, and your staff in one simple system.	Smart Management Tools Straits Tribe handles the complex parts of your day so you can focus on your members.

WHY CHOOSE

Why Choose Straits Tribe?

Commercially credible solution story	Operator-focused workflows
Modern presentation surface	Partner-ready positioning

BUSINESS FIT

Built For Practical Decision-Makers

Decision-makers, operators, and delivery teams evaluating Facility Booking & Sports Operations Platform as a commercially presentable Straits Tribe solution.

OUTCOMES

What This Solution Helps Teams Achieve

- Automatically manage waitlists for your most popular time slots.
- Easily handle weather cancellations with fair compensation tools.
- Manage rules and penalties without the paperwork.
- Report repairs and track maintenance status in real-time.
- Track bookings, revenue, and how busy your venue is at any time.
- Create custom reports with the information you need most.

Ready to position Facility Booking & Sports Operations Platform with confidence?

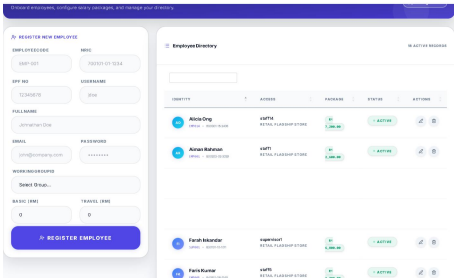

Use this Straits Tribe brief as a polished partner-facing leave-behind for walkthroughs, presentations, and solution discussions.

HR • ATTENDANCE • PAYROLL

Attendance, Leave & Salary

Straits Tribe brochure for business owners. See attendance, leave, overtime, salary review, approvals and payslips in one clear daily view across phone and office screens.

Request Solution Walkthrough

ABOUT ATTENDANCE, LEAVE & SALARY

Attendance, Leave & Salary

Straits Tribe helps owners and managers see who is in, who is off, what needs approval and what salary is ready, without chasing paper, messages or separate files.

See attendance, leave and salary in one place. Staff use the phone. Managers use the office screen. Everything stays clear and quick.

CORE MODULES

Comprehensive Solution Capabilities

Built to support real operating teams with clear modules, practical workflows, and presentable product depth.

Owners Check the overall picture, spot delays early and keep control without asking around.	Managers Approve leave, approve extra hours and keep daily staffing balanced.	People team Keep staff records tidy and salary preparation easier to follow.
Staff Clock in, send requests and open payslips from the phone in a few taps.	Attendance Know who has clocked in and out, and review daily records with less manual checking.	Leave Staff can request time off and managers can approve it in one clear flow without chasing paper forms.

WHY CHOOSE

Why Choose Straits Tribe?

Less chasing	Faster approvals
Clearer salary work	Better staff experience

BUSINESS FIT

Built For Practical Decision-Makers

Decision-makers, operators, and delivery teams evaluating Attendance, Leave and Salary as a commercially presentable Straits Tribe solution.

Ready to position Attendance, Leave and Salary with confidence?

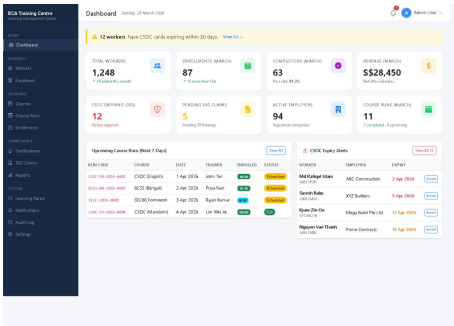

Use this Straits Tribe brief as a polished partner-facing leave-behind for walkthroughs, presentations, and solution discussions.

LEARNING • TRAINING • STUDENTS • COMPLIANCE

Learning & Training Management

A modern learning management and training operations platform for centres that need scheduling, enrollment, compliance, reporting, mobile access, and executive visibility.

Request Solution Walkthrough

ABOUT LTMS

Learning & Training Management

Straits Tribe LMS turns daily training administration into a connected operating system: schedule runs, enroll students, track attendance, issue credentials, manage claims, and see business movement in real time.

CORE MODULES

Comprehensive Solution Capabilities

Built to support real operating teams with clear modules, practical workflows, and presentable product depth.

Executive Insights Owners see revenue movement, top courses, employer value, enrollment trends, and urgent actions without building spreadsheets.	Operations Board Managers track today's runs, capacity pressure, pending results, and trainer workload from one action-focused board.	Training Calendar Monthly delivery visibility for course runs, rooms, trainers, available seats, and classes that need attention.
Student Success At-risk students, failed attempts, overdue outcomes, and expiring credentials stay visible before they become problems.	Compliance workflows Manage certifications, registrations, attendance records, claims, and audit evidence with structured screens and reports.	Client terminology Use Student, Candidate, Worker, Participant, or your own term across the interface without renaming the data model.

WHY CHOOSE
